Ogallala's Platte River Wildlife Farm

213028

DEER • DUCK • FISHING • GOOSE • RABBIT • TURKEY • VARMINT

This property consists of nearly 2.2 miles of river bottom on the Platte River in Nebraska. Here you will find deer hunting along with turkey and varmints such as coyotes. This property is exceptional for the duck hunter and we have built two blinds. There are many food plots planted for wildlife which will also draw the geese into the fields. There is a pond stocked with fish for members to enjoy with a two fish limit.

Enjoy this property!
